CHICAGO POLICE DEPARTMENT

15 JAN 15 10 48

8 January 2015

Gary McCarthy, Superintendent of Police
Chicago Police Department
3510 S. Michigan Avenue
Chicago, IL 60605

Dear Mr. Superintendent McCarthy,

My name is [REDACTED] I am a fifty-two years old single, unemployed software professional with no criminal record or history. I am on Social Security Disability, residing in subsidized living quarters and I have a disability – a below the right knee amputation. I am writing to you out of desperation because of a threat to my quality of life/safety, and to humbly solicit your assistance in helping me to end the brutality I have suffered since April 2014 from the Chicago Police. I also ask you to remove/overturn the false eviction [REDACTED] I have been given as a result of that police brutality. I only wish to maintain my subsidized living status, to obtain decent, safe, & affordable housing without the threat of unwarranted police brutality and unlawful surveillance. In order to do that, I need ample time to pack my household belongings - without toxic gases that make me ill - while I locate housing. Most significantly, your help would be invaluable when dealing with dangerous, life threatening, intimidating and hazing techniques to which the Internal Affairs (IA) division of the Chicago Police Department (CPD), Area 3 (71st. Cottage Grove, Chicago IL), lead by Sergeant (Sgt.) Mark Dunigen, are currently subjecting me. I am positive you do not subscribe to unlawful or unwarranted police brutality toward private citizens, as I am an ethical and decent human being. Additionally, it contributes to the mistrust of the Chicago Police by the community at large, and it isn't a cost effective way of policing or behaving. I am sure there are standards and frameworks for police conduct that are not being followed by this division. The law abiding community is expecting the police to be trustworthy, to be a part of positive community solutions, to be partners with the community, and to serve and protect.

Without my knowledge, consent, or a court order, all of my communications, physical movements, etc. are being monitored by Sgt. Dunigen of I.A. and his staff members. All cell phone activity (since early May 2014), text messages (since May 15, 2014), emails since June/early July 2014, and the tracking of all of my online movements are being monitored. From May to July 2014, I heard drilling in the air conditioner duct in my apartment, in my living & kitchen rooms, and multiple clicks at my door in intervals, which I later learned were cameras. Listening and tracking devices were being installed throughout my apt, including the bathroom. Also, an approximately 4ft by 7ft hole was

dug out behind the head board of my bed in the bedroom. Starting in late July 2014, cameras, and listening devices were installed in the building a/c system/unit and they are fully functioning with the authorization of Jackson Park Terrace Property Management, of which [REDACTED] is the building manager. Because of the existence of these devices throughout my apartment, I was intimidated (via threats on my life and with toxic gases) into trying to avoid detection by going without making any movements for hours in order that the detection device wouldn't see my location. Doing this required daily 24 hour drills where I had to lay down and/or sit quietly in various sections of my apartment without blinking, while other IA personnel/colleagues watched and listened. They give five horn blows to signal that they are watching and this occurred several times per week.

Per Srg. Dunigen, first, I was told via text messages that property manager and her maintenance crew was going to try to "kill" me - this is why I was laying practically in one spot for two days (refer to weekend of July 18-20, 2014 of this letter). Secondly, I was told the responding officers from the first robbery of my house had "a hit out" on me. Please refer to the police complaint I filed (ref log # 1067697) and later signed a letter (April 11, 2014) per Srg. Dunigen (as the wittiness) stating that I was no longer complaining on the officers. Then I was told no one was trying to kill me and I had been "played" via horn blows and written messages. Thirdly, I was told I "was in training to become an IA agent". While sitting at my dining room table, I became fed up with the attempts to control my life and wrote a letter stating that I felt like I was training for a job that I wasn't interested in. Sgt. Dunigen replied with three horn blows, which I took to mean that I was in training regardless. Since Sgt. Dunigen was and is tracking my every movement (physical, verbal, on-line, taxi cab rides) and intimidates me with messages - two beeps means don't talk, etc., he has a complete drossier on me that includes information about my personal/family life history, my full medical history, my SS #, Prescription Drug Plan information, etc.

Sgt. Dunigen is fully aware of my upper respiratory (COPD) and asthma problems/concerns. Nevertheless, he had the building's air conditioning system manipulated to dispense toxic and harmful fumes throughout my apartment at his will. These harmful agents included ones that were ammonia based, one with a decomposing rat smell, laundry detergents, gasoline, some that were semi-odorless to odorless, garbage compost, and oil based solutions, all of which made me lethargic for the whole day and damaged the nerves in my left thumb. One fume rendered me barely able to move - conscious, but in a "fog". That particular gas tremendously slowed down my heart rate and my respiration, and was administered at least 14 times at my home, twice at my grandmother's, and multiple times a day at my mother's house. Each time, I could feel the drug going through my bloodstream and into my brain; it stimulated my pelvic region, it swelled my clitoris, virgina secreted with lubrication, and made me want to have sex, as he watched via surveillance tools. Every time I would turn over in bed, he would administer another dose of this vapor. There was one incident where the fumes administered via the a/c unit and windows were so over powering and profound that I passed out in the small hallway of my apt, foaming at the mouth. I couldn't breathe and

was crying. Sgt. Dunigen administered oxygen to me via the ceiling and the walls of my apt., whereupon I felt better, but woke up the very next morning with my bedroom reeking of gasoline.

I would have to sneak in and out of my bed with or without my prosthesis, while others watched as well as not make any movement during sleep, otherwise harmful fumes would be dispensed. I could only change my clothes in my bathroom, but was still being tracked and listened to. Undercover IA agents followed and monitored me everywhere I went, signaling their presence by familiar horn blows. I have items of clothing (shoes, earrings, sweaters, cell phone, prosthesis, etc.) that have tracking devices on them as well.

Some of the symptoms I experienced from the toxic fumes were: nausea, regurgitation, loss of breath, light headedness, headaches, severe diaphragm/stomach problems, dizziness, chest pains, feeling the symptoms of a heart attack, diarrhea (multiple times), falling over, passing out, feeling weak or dazed, the loss of over 21 pounds, excessive wheezing following taking my inhaler, aching lungs, hurts to breathe out, sore throat, dry mouth, swollen lymph nodes, labored breathing, etc... Via camera surveillance, when Srg. Dunigen views my efforts to protect my lungs; he administers more fume/vapors to counter act my attempts. Some examples of the technology, software tools, and intimidation techniques which I have experienced are: poundings/knocks on walls and ceiling; the sound of a 1000lb bag of wet clothes slamming the ground; horn blows of various types (bells, pounding drums, etc) to emulate the sound of up close or at a distance; the sound of a 300lb body slam on the ceiling (multiple times) at my apt.; the slamming of hallway doors/car doors; fumes/vapors coming from the windows and altering the outside fresh air or oxygen coming into my apt.; the sweating of floor boards, ceilings, and walls with toxic fumes/vapors; the revving up of a truck and taking off; the ability to isolate fumes directed to one specific area in a room, etc.; the sound of a slamming mail box; the sound of steel scraping concrete; the use of certain vapors that mimic smells from the household and are transformed into solid forms that are fifty times more powerful, which are placed in the a/c system/unit; fumes/vapors being dispensed via a/c outlets; the profound odor of human feces, horn blows to signal communication without verbally speaking; manipulation of the air coming in or out; the changing of water flow, temperature and the intensity of Clorox within the water; the sound of a large can being beaten on; Clorox within the water; chips, pebbles, and small semi bolder sized solid forms of fumes placed in a/c unit and around the house in the ceiling, etc. In an attempt to protect myself from the fumes/vapors, many times I covered my head with my bed covers to discover the sound of a thump or knock underneath my bed, where the fumes were magnified underneath my covers. Fumes/vapors can come and go in a matter of seconds. I am not sure if it's a human being or a mechanical device that emulates the footsteps of a human following me everywhere around my apartment and/or the sound of small children running across the floor above me. These same activities continued at my mother's and grandmother's houses.

These activities are performed at every location I go to, including the listening devices and some form of wireless cameras where Sgt. Dunigen is able to see throughout the house (including the bathroom). I can communicate with Sgt. Dunigen by making speaking motions with my lips in a completely dark house. Currently, I am at my mother's house typing this letter and Sgt. Dunigen is letting me know he's reading/viewing every word I write. Even when I cover my monitor with thick material, he lets me know that he can still read the contents. These software tools and devices/hardware are expensive and I am positive they may be tracked via a department/division purchase order. Tracking these devices would determine the full scale of these tools' functionalities and capacities, which would prove that what I have written is true, i.e. that they have the ability to target an individual with full scale surveillance activity, and to apply the same full scale surveillance activities regardless of the target's location. It wouldn't surprise me if this software has the ability to develop macros (the use of software functionality to create customized specific programs), cron jobs (the use of software functionality to set time frames), etc. The above software is used for targeted criminals (individuals/parties) who are under surveillance as part of a normal police procedure and are used in military operations and used by elite law enforcement agencies, such as: Internal Affairs, Undercover Agents, Secret Services, FBI, CIA, Navy Seals, etc. This software is completely different from administrative software programs used to track in-house activities. I am a harmless amputee that has been used as the beta test for these tools, and the experience has been worse than traumatic.

Based on the extremely serious nature of the robbery (Jan. 1-6, 2014) and subsequent altercation with Property Management, the detective's investigation in late April/early May 2014, and my initial complaint of the responding police officers, I thought the surveillance was valid. They made bird call sounds and horn blows to prompt me to flash my apartment lights in order to indicate my location within my apartment (before the surveillance was functioning), which I did as I thought it was for my protection. But then later (late July 2014), I didn't understand why my home, all communications, and online activities were being and continue to be monitored, nor did I ever receive any explanations (please refer to page 8, 1st paragraph). Nevertheless, I accepted it at first, believing it was for my safety and protection. Initially (mid/late May 2014), I wasn't aware I was under 24 hour surveillance from the IA team until various types of undercover vehicles became apparent. There have been 12 or more cars & unmarked SUVs with super dark tinted windows; "soccer mom" vans, including a white surveillance van w/bars dividing the passenger section from the back of the van (IL license plate [REDACTED]), which has been at my home on a daily basis; a large industrial sized flat-bed truck, which would charge/operate on 2 of the vans; a gray & white SUV w/IL license plate [REDACTED] a red van w/IL license plate [REDACTED] scattered around my apartment building and throughout the housing complex.

Around July 15, 2014, via text (using my girlfriend's text address) and horn blows, Sgt. Dunigen led me to believe the Property Manager [REDACTED] of Jackson Park Terrace apartment complex & her maintenance crew were planning to "kill me" and

the "hit was planned for the weekend of July 18-20, 2014". I was so shocked and upset that I passed out at a shop on 55th and Cornell. After Sgt. Dunigen learned of my passing out, he instructed a helicopter to fly over the housing complex for four (4) days non-stop throughout the day and night. The communication of Sgt. Dunigen with me via horn blows and text messages can be proven and obtained with a print out of all of the texts messages (from May to late Aug/early Sept 2014). On July 18th at 8:30am, he and his staff instructed me to lie on the floor in one spot (so they would know my location & protect me) for the entire weekend or until the "hit" was made, and assured me "no harm would come to me". On July 20th, around 6-7am and after Sgt. Dunigen knew my cell phone battery had died out, one of his agents entered my apartment without invitation while I lay in the same room. The IA agent went into my bedroom, pulled my bed covers back, knocked over a hat, opened my bedroom closet door, and came back into the room where I was laying down stricken with fear. I NEVER HEARD ANY FOOTSTEPS while the agent was in my apartment (nothing was stolen, but a layout of my apartment was noted). I didn't notice the agent was in the same room with me until I smelled two puffs of cigarette smoke, a women's perfume, and the smell of a chemical.

Once I smelled the chemical, I felt I was losing consciousness and jumped up without my prosthetic device to get some air before I passed out. I used platters to break the window in order to breathe. As I was asking for help through the window, I saw all of the undercover cars, vans, and SUVs, however, none of them came to help me. Instead, the police and an ambulance came and gave me two options - the police station or the hospital. At the time, I was afraid of the police and opted for the hospital, even though all I had was a superficial cut on my thumb.

Once at the hospital, I explained that my apartment had been broken into for the second time and a chemical was dispersed that made it difficult to breathe, which is why I broke the window. Immediately, I was transferred to the psychiatric section of ER, where an inaccurate assessment of the event and a false representation of my history were taken down by the resident and signed off on by the attendant, whom I never met. I repeatedly requested to speak with the attendant, doctor, and ER nurses, as well as requested that my regular psychiatrist be contacted, because it wouldn't have been his recommendation that I be hospitalized. However, no one cooperated with me, and I was transferred by the paramedics to the University of Chicago Psychiatric unit at Mercy Hospital in an attempt to have me labeled as being "delusional". I was released after four days of hospitalization (July 21-24, 2014).

Upon my return from the hospital, on July 29th, I was hand delivered a "Notice of Termination of Tenancy" from the property management's maintenance crew stating my "tenancy may be terminated as of August 31, 2014....re: broken window (\$448.34), the first robbery of my apt, the detective's investigation, etc." I have never missed a rent payment. Via horn blows and written signs to the IA team, they instructed me to come down stairs where I saw six undercover IA members carrying manila envelopes, the same kind as the one Sgt. Dunigen brought to my house. Two went into the property manager's office, one (who looked to be a Sgt.) went into the business office, one walked

in the building alone, and the other two were walking with the maintenance crew with a steel looking silver brief case. Via the above actions and horn blows, I was under the impression the Tenancy of Termination and the amount from the broken window had been settled. Maintenance came to my apartment 3-4 times, letting me know they were going to fix the widow, but I never received an invoice during or after the installation.

Once I started complaining to Sgt. Dunigen about the massive amounts of fumes and vapors, which were compromising my health significantly, I learned that I would be evicted from my apartment. That was in September of 2014. Immediately, I started packing my belongings. However, Sgt. Dunigen sabotaged me and prevented my packing efforts by daily (all day long) filling up my apartment and the common hallways with toxic fumes. It is my belief that he wants to remove my household belongings, all of which I purchased during my 5 year career in Europe. Forcing me out of bed without my prosthesis with an enormous amount of profound fumes and the demand of my participation in the daily military-like sessions, prevented me from making meals, etc. I was wakened twice every night (2am & 4am) by the fumes infesting my apartment. After I cleared out my apartment, which would take one and a half to two hours, I would try to return to bed (4am-5:30am). Then, I would be awakening around 8-9am to repeat the cycle. I was not able to pack anything as I was spending all of my time trying to protect myself from the administered fumes.

On Oct. 11, 2014 (9-11pm), as a result of the highly stressful experiences at my home and wanting to get away from the vicious fume/vapor attacks, as well as to have my telephone number changed, I went to a friend's house for a few hours. When I returned home, Sgt. Dunigen released massive amounts of fumes so that I could no longer stay in the apartment. Since the fumes were so overpowering, I opened my front door in an attempt to replace the fumes with fresh air, but I was unsuccessful. Finally, I left the house and walked around the housing complex attempting to get fresh air. As a result, I saw IA agents and heard many car horns trying to obtain my location. There was also a helicopter sent out to locate me as well as the scent of the laundry detergent fumes at my location on the grounds. The next day, I discovered a dark pink candy/gum agent placed neatly in a groove under one of my gym shoes. I assume it was a form of tracking device, because Sgt. Dunigen became angry when he saw me removing it at my grandmother's house, where he was able to see in the bathroom as well.

Oct. 12, 2014 (8-10pm), trying to get away from my apartment again, I walked to my grandmother's house where I saw IA undercover agents, Kate Property Security Company, police officers in an SUV, and a helicopter tracking my location as I walked. Once I arrived at my destination, the surveillance continued to take place, exposing my 95 year old grandmother even when she dressed. On Oct. 18, 2014, the fumes were so bad that I had to run from my grandmother's 14th floor apartment out into the parking lot to get some fresh air, where it only became worse... The police and an ambulance were called and I was treated abrasively. Against my will, I was transported to the University of Chicago ER where I was treated even worse as other patients looked on in amazement. This was their second attempt to label me as "delusional". Following this aggressive

experience, I was made to await paramedics to transport me to South Shore Hospital Psychiatric unit, where I was also exposed to the fumes and vapors via staff members and the Head of the Floor.

On Oct. 23, 2014, I was released from South Shore Hospital, whereupon I went to my mother's house to convalesce. I was there until Nov. 26, 2014 recuperating from the horrible, unwarranted, and unfair hospital stay and trying to preparing myself and my apartment for eviction. I continued to be afraid to return to my apartment alone. The things I have listed (cameras, listening & tracking devices, fumes, and vapors - a full suite of surveillance tools like those used in my own apartment) continued to be used by the IA team under Sgt. Dunigen's direction at my mother's house, where I became physically ill. I passed out and vomited multiple times from the fumes. I am unable to sleep or sit up without something covering my nose and mouth; I have to sleep practically on top of my mother in order to find a small pocket of oxygen with which to breathe because I am unable to open the doors and windows because fumes and vapors are coming from the outside as well as being dispensed 24 hours a day on the inside of the apartment.

On Nov. 7, 2014, I again attempted to reach out to Sgt. Dunigen, but was told he was off work; however, earlier during that day, Sgt. Dunigen had me participating in another "military" session while at my mother house. This included the use of tracking devices all over the house and dispensing toxic fumes as well. My first and only physical encounter with Sgt. Dunigen was on April 11th, 2014 @ 8:30pm when he came to my apartment following several telephone conversations. He came so that I could sign a letter (the letter wasn't on CPD official letterhead, nor did I receive a copy) stating that I was no longer complaining about the responding police officers regarding a robbery which had taken place at my apartment on the days of Jan 1-6th, 2014. Per the Independent Police Review Authority (ref log # 1067697), several of my citizen's rights had been violated and the police officers' actions or lack thereof were unacceptable once they were on the scene where the listed items were stolen. During Sgt. Dunigen's first visit, he promised to send two of his officers to my apartment that same evening to retrieve details of the robbery and provide a police report [REDACTED]. Following the entering of the police report # into the CPD system, detective Cruz contacted me for more information regarding my cousin (the thief), the Property Manager, and her staff member's role in the matter, etc. The visit with Sgt. Dunigen was pleasant, brief and to the point; it ended with a professional hand shake and he fulfilled his promise.

On Nov 21, 2014, my mother went to my apartment in an attempt to help me pack my household belongings. When she turned the key, the lock turned over and clicked as if it was going to open, however; the handle on the door wouldn't move. She tried it many times without success. On Nov. 27, 2014, I telephoned the Property Manager and asked if I had been locked out. She said, "No, we haven't changed the locks; you should still be able to enter your apartment". Again, on Dec. 22, 2014, my mother tried to open my apartment door without success. It is my belief, this is another continued plot to remove my household belongings as well as sabotage my packing efforts from Srg. Dunigen and

his team. As of Dec. 15, 2014, I have not received a final notice letter for eviction from the Cook County Sheriff's department. On Dec. 23, 2014, I received a final eviction notice from the Cook County Sheriff's Office. The letter was dated on Dec. 4, 2014, with a post mark of Dec. 11; however, I received it on the 23rd.

On Dec. 9, 2014, I e-mailed this letter to Mayor Rahm Emanuel and the carbon copy list from my hotmail account. All of the emails were sent successfully with the exception of a few e-mails from the Associated Press and a couple others. Approximately one hour following the success of my e-mails being sent, I was locked out of my hotmail account. I tried to reclaim the account three times without success, which left me no way to reply to any responses I may have received from the letter. Finally, I telephone Microsoft to have the account closed; and was informed that my "online activities and e-mail had been hacked up to 78%". "The hacking may be coming from the Chicago area, but the Microsoft system says the hacking is originating from Mexico".

On Dec. 10, 2014, I opened a Gmail account and twice e-mailed a small letter to the same e-mail addresses that were sent successfully on my Hotmail account. The e-mails were returned to me twice as undelivered.

COMPLAINTS REPORTED to the FOLLOWING AGENCIES:

FBI CHICAGO LOCAL OFFICE:

On Dec. 11, 2014, I telephoned the FBI Chicago Local Office ((312) 421-6700) at 4:26pm (3 min 13 secs), to see if my letter was received; to speak with the Duty Agent; and to provide my complaint. Dec. 12, 2014, I telephoned again at 2:26pm (15 min 42 secs), to check if my letter was received and provide my complaint. Dec. 18, 2014 at 10:01am (5 min 5 sec) and at 10:06am (2min 46 secs), as I was explaining my reason for calling, the phone was hung up on me in both cases. I was shocked and didn't understand what had happened. I telephone back at 10:09 (7 min 4 secs) and spoke with "ID# 0940", and again I explained I was trying to check if my letter had been received and provide my complaint. In all cases, my name and telephone was taken; I was told I was calling the FBI call center on the East coast; they had no way of knowing if the letter was received; I wouldn't be able to find out if the FBI would investigate my complaint; and no reference/case numbers were given in any of the telephone calls made to the FBI. I also provided brief online comments in the complaint section regarding the ten page letter I had written to the FBI and to provide some topics mentioned in the letter.

INDEPENDENT POLICE REVIEW AUTHORITY:

On Dec. 18, 2014, I telephoned the Independent Police Review Authority at 9:33am, to make a complaint regarding the above issues and spoke with "Investigator Kobel", who denied my complaints, wouldn't listen, didn't take them serious, quickly said the matter would be turned over to Internal Affairs (IA) and provided me with reference number 1073012. My question was why would the matter be turned over to IA, when they are the ones whom I am complaining about? The question wasn't answered.

SECRET SERVICE CHICAGO LOCAL OFFICE:

On Dec. 18, 2014, I telephone the Secret Service Chicago Local Office at 10:26am (5 min 8 secs) and was told they didn't handle matters I described; the FBI wouldn't provide a reference/case number; and I wouldn't be informed if my complaint would be investigated. As we were conversing, I was asked to hold on as I heard twice in the background a radio saying, "Chicago Police".

Based on the above telephone conversations, it appears that my telephone calls had been diverted via the unlawful surveillance described in this letter.

On Dec. 23, 2014, I telephone Uhal Rental Trucks at 9:08 (11 min 40 secs), to reserve a rental truck. I provided all of my information, my credit card number and the reservation was set. The representative e-mailed my Gmail account with the reservation number and details. Following the call, I checked my e-mail to obtain the reservation information; but no e-mail was present. I telephoned Uhal again at 9:55 (30 min 46secs) to request that the e-mail be re-sent; however, Uhal said they didn't have any records in their system that I made a reservation for a rental truck. As a result, I had to provide all of the information again and to make arrangements to safe guard the new reservation.

I never participated in any criminal activities nor have I ever had any problems with Law Enforcement before, and all of my friends are law-abiding, highly esteemed professionals. I cannot explain any of the horrible and terrifying experiences I have been subjected to since April/May 2014 other than that it is a plot to remove from my household valuable European antiques and/or that it is a beta test for the software and hardware used during the above periods. To say the very least, it has been horrifying, traumatic, and traumatizing. The fumes are occurring as I write this letter. I don't understand how a harmless, innocent, private citizen can be subjected to such horrific, deadly, and aggressive behaviors from the Chicago Police Department. I repeatedly requested for written notification from Sgt. Dunigen verifying that I was "being trained to become an IA agent". Additionally, I mentioned repeatedly that I should have been given the option to consent to having cameras, listening/tracking devices, etc. in my apartment. These requests were ignored. Nevertheless, I continued to cooperate and participate in the daily 24 hour "military drills", having to "tip-toe" on "egg shells", and constantly having to cover my mouth and nose (three to four layers to include a top plastic cover) to breathe even during sleeping hours. As a result of my covering up, even more fumes and vapors would be administered in order to penetrate my coverings. I was unable to talk, afraid to make any sounds except to play music in order to distract the tracking device, and constantly on "pins and needles" in my home or at my mother's and grandmother's houses. I was unable to use my telephone or to communicate with family and friends for 1 to 1 ½ months, unable to clean myself up (brush teeth, etc.). When I colored my hair, the fumes/vapors were deciphered, turned into a solid form, and administered throughout my apt. via the a/c system. I never turned on my a/c unit, however; toxic fumes and vapors were being dispensed from the unit.

Sgt. Dunigen orchestrated and was instrumental in the false eviction (currently on my record) which I want removed, the two false hospitalizations, the sabotage and prevention of my efforts to pack my household belongings (an order of possession is currently active- [REDACTED]), and the deterioration of my respiratory system, as I was fed harmful fumes daily via the above means for months. I want the false eviction removed from my record and decent, safe housing. I have run many households in this state, out of state, and in a foreign country and have never been evicted before in my life. I want Sgt. Dunigen and his staff out of my house and life. I am afraid of him and his colleagues, because of his determined, unrelenting acts of cruelty and his lack of regard for human life. My life has been consumed with Sgt. Dunigen's unlawful and unwarranted actions since April/May 2014 to the present. I have repeatedly tried to make contact with him; however he has refused to speak with me. Because my life is at serious risk, I feel the need to involve those who can stop this behavior and prevent others from being harassed, threatened, and intimidated by the CPD. It is obvious he has no intention of stopping this behavior and I don't feel I can live my life under the controlling hand of Sgt. Dunigen.

This letter has been written with an extremely heavy heart because I believed Sgt. Dunigen was a kind, compassionate, and honorable professional with integrity. Initially, I felt Sgt. Dunigen had the very best intentions for me; however, somewhere during the course of the above, something went wrong. I have repeatedly tried to reach out to Sgt. Dunigen to understand what went wrong and if there was anything I could do to correct or repair whatever had happened. I was unsuccessful at all attempts and the above actions continued. I have respect for Sgt. Dunigen's position for I am positive he is very good at what he does (patient, intelligent, and strategic). However, with the above actions, his personhood is in question. I am shocked and amazed at his relentless energy in the continued activities, even going to so far as to perform the same activities at my mother's and grandmother's house. I feel truly awful and helpless at the breakdown of our "partnership".

This letter is NOT an attempt to reprimand Sgt. Dunigen, but instead to prevent this behavior from occurring to other innocent, harmless citizens. I believe he is a knowledgeable professional with the capacity for a good spirit/will. I think something happened where perhaps he didn't feel comfortable communicating with me, which resulted in these harmful actions. Again, I have respect for Sgt. Dunigen's position; however, it is difficult to respect the gross abuse and misuse of one's position and power. I wish him the very best in his promising career within the Chicago Police Department once he is re-trained on his oaths, discernment(s) of his position, and the proper boundaries of his position in reference to the community at large. Moreover, I am saddened and disappointed by the above experiences with Sgt. Dunigen, as one would expect more from a person of his professional caliber. I can't imagine him using the time, budget, and resources to do such things, especially for an extended period of months, as it isn't cost effective for the city or the management of department budgets and financial targets. His intimidating techniques, unrelenting intrusiveness, steadfast viciousness, and his unforgiving spirit all make me fearful of my safety and my life.

Persons with full and strong knowledge of my former apartment #507 full blown suite of surveillance (cameras, hearing, and tracking devices) are:

1. Srg. Dunigen and selected staff members (undercover agents, surveillance agents, detectives, sergeants, police offers, etc.). Area 3 police station: (312) 747 8201.
2. [REDACTED] Jackson Park Terrance Property Manager, [REDACTED] and office number 773 241 7700. Authorized surveillance installation in my apartment and building.
3. [REDACTED] (Office Assistance to [REDACTED] maintenance crew [REDACTED] supervisor, etc.). Telephone number: 773 241 7700.
4. [REDACTED] Front Desk Clerk, 773 263 6884.
5. [REDACTED] Front Desk Clerk, phone number unknown.
6. [REDACTED] husband of [REDACTED] (cell phone number).
7. [REDACTED] Mother of [REDACTED] and mother-in-law of [REDACTED] San Antonio, TX. [REDACTED] (cell phone number).

Persons who have heard of the above via reliable sources:

1. [REDACTED] tenant of Jackson Park Terrance, [REDACTED] (home telephone number).
2. [REDACTED] tenant of Jackson Park Terrance and retired police officer. [REDACTED] (home telephone number) and [REDACTED] (cell phone number).
3. Multiple Jackson Park Terrance tenants.
